

STATEMENT OF PURPOSE

RS30395 / S1109

This bill removes a sunset on the ability of the occupational licensing review committee's ability to function and help reduce the burden of unnecessary government regulation. The existence of the committee has been a good deterrent to the pursuit of unnecessary government regulation licensing. It also modifies the review period for each existing licensing authority regulations to at least once every ten years.

FISCAL NOTE

The fiscal impact of removing the sunset and retraining the committee function and staff time to review regulations should be similar to that fiscal impact than previously budgeted. The committee only meets to review new licensing regulations as needed that being when such regulation is actually proposed. The modification of the review time frame for existing regulations from five to ten years should reduce the fiscal impact of the committee as the reviews will occur less frequently.
